

Fly Swatter - Bugs

- Before playing project image on to a screen in your classroom. (Smartboard, projector, overhead)
- Need:
 - Flashcards (addition or subtraction) with the sum or difference between 0-12
 - Fly swatters (2-3, depending on number of teams or students)
- Options:
 - Fact Practice: divide the class up into 2 or 3 teams. Each team sends one student to the front. Show the students a flashcard, first student to swat the answer receives a point for his/her team.
 - For lower elementary say a number and the first student to swat the number will receive a point.
 - Small group-if you have mini fly swatters, print page out and play group with 2-3 students.

Thank you!

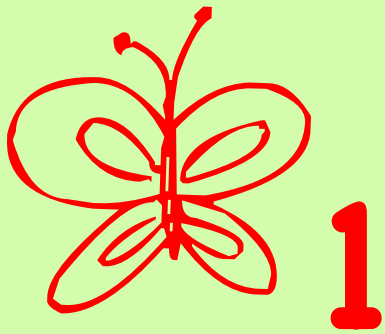

Thank you so much for your purchase. I hope you find this item useful in your classroom. Some of my items I have used in my classroom and some I have not. Please let me know how they work or if you have any ideas to make them better. Please leave me feedback at TPT or you can email me at saramspringer@gmail.com.

Thank you again for your purchase!
